Do not store into beam

Ultra-thin and fitting with exquisite techniques

With the challenge of industrial standards, SUNMI introduces an ultra-thin concept that the thinnest place of V2 PRO's machine body is only 13mm. It's very comfortable for holding in the hand so that even a petite female can hold it very well;With the unique sloping edge at the bottom of the machine body, it is easy for placing it in the apron, pocket or coat

Double-shot molding for compression resistance and drop resistance

Surrounded with light gray flexible glue with dull polish tactility, it fully considers the feeling of holding as well as the reinforcing design of four-angle thickening in order to reduce a landing impact force of V2 PRO

*A pocket device that would also survive a 1-meter drop

No more delay in printing orders

Precision printing with higher speed

58mm
line thermal printing

50km
printhead life

70mm/s
printing speed

10,000 times
of lid-flipping

Do not stare into beam

Why settle for ordinary when
you can be extraordinary

Better performance with lower energy consumption

Qualcomm Snapdragon quad-core processor，Outstanding stability even during long-operating hours, capable of multitasking and handling high amount of data

Qualcomm®
snapdragon

SUNMI OS

Built to handle commercial applications, with outstanding stability for uninterrupted operation

Learn more

Wide array of compatibility for increased capability

eSIM

Without installing any sim card, it is available for freely choosing the operator and opening relevant service

Dual-band WI-FI

With low interference, the transmission speed can be faster to make the product usage more fluent

4G

It can keep alive at any time and anywhere no matter whether you're indoors or outdoors

NFC module
for multiple applications

Near-field-communication supports loyalty programs,
i.e. points collection and more

PSAM

support devoted to more professional area

Supporting the security module of a PSAM Card, it is suitable for a multiple application environment, such as three-meter inspection, public transportation and mobile law enforcement, etc.

V2 PRO Technical Specifications

CPU
Qualcomm snapdragon
Quad Core Processor

OS
Android 7.1
SUNMI OS

Memory
8GB ROM+1GB RAM

Display
5.99"HD+, 1440×720, IPS

Wi-Fi
2.4G&5G
Support IEEE 802.11 a/b/g/n

GPS
GPS, A-GPS

Button
Power On Button
Volume Up/Volume Down

Video
Support 1080P video

Battery
Non-removable lithium battery
2580mAh@ 7.6V

Speaker
1W

Interface
Type-C
Support OTG/USB to LAN

Bluetooth
Support Bluetooth 2.1/3.0/4.2
Support BLE

Adapter
INPUT：AC100/240V
OUTPUT：5V/2A

Size
21.5×8.3×1.7cm

Weight
346g
356g（include 1D scanning head)

SIM Card Slot
1.8V/3.0V; PSAM×1
(compatible)
wifi version does not support

Communication
4G

Printing
Hight Speed 58 thermal printing
printing speed >70mm/s
support Roll Diameter 40mm
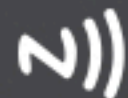

Camera
5.0MP, Flash, AF

Envionment
Working temperature:
0℃~45℃
Storage temperature:
-40℃~70℃

Optional

NFC
mifare/Felica/ISO
14443/ Type A/B/ISO15693
(optional)

Barcode Recogniting
scan by back camera,
Support 1D&2D QR code
reading
